A SEASHORE DIVISION

■ ABOUT US

Aqua Sure Trading & Services is a division of Seashore group dedicated to revolutionizing the water and air industries with a focus on improving the quality of life for individuals and communities. With a deep commitment to sustainability and innovation, we strive to deliver cutting-edge solutions that address pressing challenges related to water purification, air quality management, and environmental conservation.

■ MISSION

Our mission at Aqua Sure is to empower people worldwide to lead healthier lives by providing access to clean water and fresh air. We are driven by a passion for innovation and sustainability, aiming to create a positive impact on the environment and enhance the well-being of current and future generations.

Impact: At Aqua Sure Solutions, we measure our success not only by financial performance but also by the positive impact we have on the lives of people and the planet. Through our innovative water and air solutions, we aim to improve health, enhance quality of life, and contribute to a more sustainable and resilient future for all.

Join us in our mission to provide quality life through sustainable water and air solutions. Together, we can make a difference and create a healthier, cleaner, and more prosperous world for generations to come.

PUMPS

Aqua Sure offers a variety of pump solutions for water management applications, including submersible pumps, centrifugal pumps, and booster pumps, designed to meet the diverse needs of residential, commercial, and industrial clients.

AquaSure offers a diverse selection of Lowara pumps, including:

➤ **SUBMERSIBLE PUMPS**

Ideal for various applications such as drainage, wastewater handling, and sewage pumping.

➤ **CENTRIFUGAL PUMPS**

Versatile pumps suitable for water supply, irrigation, HVAC systems, and industrial processes.

➤ **BOOSTER PUMPS**

Efficient pumps designed to increase water pressure in residential, commercial, and municipal water distribution systems.

➤ **MULTISTAGE PUMPS**

High-performance pumps capable of handling high-pressure applications in water supply, irrigation, and industrial settings.

➤ **AND MORE**

Our range also includes specialty pumps for specific applications, ensuring we meet the unique needs of our customers.

BLUE STAR

VARIABLE REFRIGERANT FLOW (VRF)

Setting new benchmark for sustainability at high ambient and energy efficiency with smart technology

Our services extend to Variable Refrigerant Flow (VRF) systems and ducted split units sourced from Bluestar a trusted brand in the HVAC industry ensuring efficient installation, maintenance, and support.

Bluestar VRF systems boast energy efficiency, flexible design, and precise temperature control, ideal for various applications. Ducted split units from Bluestar offer compact design, high efficiency, and even air distribution, ensuring consistent comfort in any space.

SALIENT FEATURES

- ▶ Highly Efficient Inverter Compressors
- ▶ High System Efficiency. Iplv More Than 7
- ▶ Wide Operating Voltage Range
- ▶ Specially Designed Outdoor Units For Higher Ambient Conditions
- ▶ Innovative Refrigerant- Cooled Heat Sinks For Pcb Cooling

PACKAGED DUCTED SPLIT AC

SALIENT FEATURES

- ▶ Highly Efficient Units
 - Both air- cooled and water-cooled options available
 - Designed to work effectively even in ambient temperatures as high as 52°C
- ▶ Eco-Friendly R410A Refrigerant
 - Specially coated aluminium fins for both indoor and outdoor units
 - ▶ Intelligent Microprocessor Controller

TANK CHILLERS

Aqua Sure offers Circulation type and coil type tank chillers. Chillers are designed to provide cold water for residential & Commercial application. WTC units can provide cold water even at an ambient temperature of 52°C.

We use highly efficient scroll & rotary compressors and environment friendly R410A refrigerant, Brazed plate heat exchanger in our WTC series unit. It is a plug and play system which requires minimum interference for installation and commissioning.

BWTC SERIES

Blue Star's expertise results in the constant design and development of new and innovative products that suit the various and precise needs of users across the world. One such product range is the Water Tank Chiller specially designed for the specific requirements of the Middle East markets. Blue Star's Water Tank Chillers are designed for both domestic and industrial use, and hence they can be used both in residential and commercial applications.

BITC SERIES

Typical installation with stand mounting option

By installing a blue star tank cooler, you can enjoy the comfort of cool running water from every water source in your home. Made from the highest quality materials and engineered for efficient design, Blue Star's chiller is just what you need for a pleasant summer at home

- High-efficiency rotary and scroll compressors
- High Efficiency, Heavy Duty inbuilt pump for recirculation of water
- Service port and valves for ease of maintenance
- Environment-friendly R410A refrigerant
- Built-in hydronic system
- Plug-in type for faster installation
- Easy to operate through microprocessor controller in-built/remotely installed

HOUSE of PURITY

FILTRATION SYSTEMS

AquaSure Solutions provides filter services for both residential and industrial sectors, focusing on quality and sustainability. Our services aim to improve water quality, ensure compliance with regulations, and support environmental preservation.

For residential needs, we've partnered with Kent, a leading brand in the RO water filtration industry. Kent offers a diverse range of products tailored to meet various applications.

The World's Best Water Purifiers

KENT – RESIDENIAL FILTRATION SYSTEMS

UV & UF Water Purifiers

RO Water Purifiers

KENT – COMMERCIAL FILTRATION SYSTEMS

Mineral RO™ TECHNOLOGY

Maintains essential minerals while reducing dissolved impurities with double purification

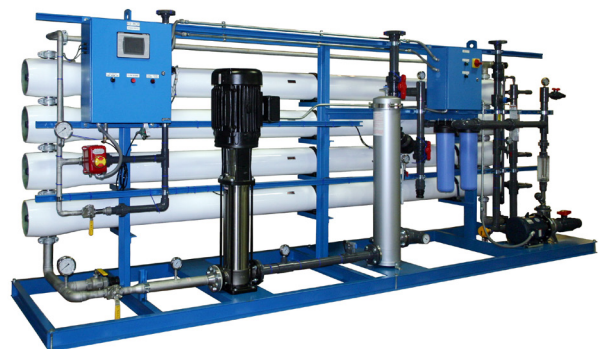

RO + UF + UV + TDS Control

INDUSTRIAL WATER TREATMENT SYSTEMS

AquaSure provides comprehensive services including the design, fabrication, and installation of Industrial water filtration systems. We utilize products from reputable brands such as Pentair Europe, Kent India, and Aqua Italy to ensure high-quality solutions for our clients.

We provide comprehensive services including supply, installation, and AMC (Annual Maintenance Contract) for a full range of filtration systems, which include:

- ➔ Multi-Media Filters
- ➔ Carbon Filters
- ➔ UV Filtration Systems
- ➔ Water Softeners.

A COMPLETE RANGE OF APPLIED PRODUCTS TO SUIT EVERY NEED

Pumps

VRF Systems
